

We had hoped that restrictions would be lifted by the beginning of July in time for our first Show of the year, but some were still in place on the day. Thankfully the weather was dry, so refreshments and the auction could be sited outside. This event replaced the Spring Show, so a later date made it our first Summer Show – where visitors were greeted by a very fine array of flowers and produce. Delphiniums were particularly spectacular, generating a great deal of interest. The sun even came out, lifting the sprits further and adding to the happy, relaxed atmosphere.

Make a note in your diary for the Autumn Show: September 11th 2021. Schedules available from mid-July!
